

Match 7 Orchard Place Farm Lake 10 5th June 2022

On a day when the forecasters said we were due torrential downpours and thunder and lightening we were treated for the most calm and benign conditions for some time. No wind, no rain and no blazing sun.....all this made for a pleasant day and great presentation.

The only thing missing was netfuls of fish.

Lake 10 was a change from the original venue due to numbers of anglers attending and this being a Bank Holiday weekend.

On the day we fished the far bank and at the draw the 2 end pegs were the first to go. Bob and Keith in the same swims as last time we fished here.

Then it was roach and the occasional Crucian and Tench.

This time only a few Tench and small carp were caught, but NO bream or skimmers and most people had a Bertie Barbel.....

Andrew had 10 in his catch to make him the winner with a level 29lb.

Runner up was Keith with 21lb+.

It was a frustrating day with everyone having a run of fish followed by a time of quiet with no bites.

All in all a good day was had with a total of just over 100lb of fish caught between 7 anglers.

A good practice for our next league match which is again on Lake 10 in THREE weeks time.
