

### **Match 16 Arrans, House Lake, 13th October 2024**

11 members out and the weather was again very pleasant but a bit chilly to after an overnight temperature drop which did seem to effect the fishing.

That and another club fishing the lake (and moaning about everything....!!!)

Definitely gone are shorts and t-shirts now bib and braces with jackets and thermals.....

From the whistle a few of us were into carp and the morning flew past with most catching a few fish.

The afternoon was a different story though with anglers at top end of lake seeming to catch more where us at the car park end were suffering with a lack of bites and a lack of fish.

Winner and runner up on the day were Mason with 137lb and Ben 104lb who are also first and second in the Champions League with 2 points between them, certainly going down to the wire this year.

Next venue is Monk Lakes 2 (Back Pool) as a replacement for Mousehole which managed to let us down twice this year.....!!!!

Anyone NOT going please let either Ross or Dave Ford know.

Thanks  
ATB Dave
