

Match 6 Chart, 19th May 2024

10 anglers out on this match and it was wall to wall sunshine all day with a very gentle breeze again.

The fishing was a bit frustrating again as there were fish about but during the morning period there didn't seem to be many wanting to feed.

Also, there was a problem for some of us where the scum and detritus on the surface was causing issues.

Thankfully when the breeze came along most of this blew away.

Winner on the day was "end peg" Ben who alternated between feeder and pole for a relatively low winning weight at Chart of 103lb, mostly of smaller stamp fish.

At the other end Ross came second with 73lb just edging Bob E. who had 72lb.

Again, I drew the Golden Peg and knew it wasn't going to be a good day when Ian Harvey tells everyone that it's a rollover again.....

I had a good late hour when the better carp decided to show in the margins, but too little too late.

We also saw Terry who hasn't been able to make it out yet this year – nice to see you mate.

Next venue is Orchard Lake 5. This is on 2nd June.

Anyone NOT going please let either Ross or Dave Ford know.

Thanks

ATB

Dave
